- Up to 60 pages a minute

Company Files   Legal & Financial   Libraries & Museums   Government

The M3000 Scanner is a fast book scanner especially designed for bound books, files, archives, receipts and folders. Without removing staples the scanning speed can reach 60 pages per minute. Pages can be automatically cropped and flattened.

*Scan easily without unbinding or
 removing staples

*AF autofocus can avoid the
complication of manual focus.

*Scan two pages at the same time.

*Capture using supplied Foot switch or Finger switch

*Two level built in LED lighting

The M3000 is suitable for many organisations including;
Libraries, Government, Legal and Finance corporations.
Old and delicate books can be captured and digitised,
historical documents can be electronically captured and
stored. The M3000 is far quicker than conventional flatbed scanners and kinder
on the books protecting the the spine and bindings.
